

POWERED REEL ROLLERS

PRR Series

The PRR Series was created for economical powered take-up and payout operation use in extrusion, assembly and inspection processes or where minimum floor space usage is required. The PRR may be easily loaded by utilizing the loading ramp, overhead crane, or with a forklift and is available with options to fit your application.

Shown above is our PRR10 with a Pedestal Mounted controls and Variable Speed Operator Controlled Footswitch.

POWERED REEL ROLLERS

PRR Series

Standard Capacities

- PRR1 24" to 60" Dia. x 36" Wide x 1,000 Lb. Load Capacity.
1 HP SCR Variable Speed Drive,
120V 1 Ph., 0-450 RFPM.
- PRR10 To 96" Dia. x 60" Wide x 10,000 Lb. Load Capacity.
2HP SCR Variable Speed Drive,
230V 1 Ph., 0-150 RFPM.
- PRR20 To 120" Dia. x 72" Wide x 20,000 Lb. Load Capacity.
3HP SCR Variable Speed Drive,
230V 1 Ph., 0-150 RFPM.

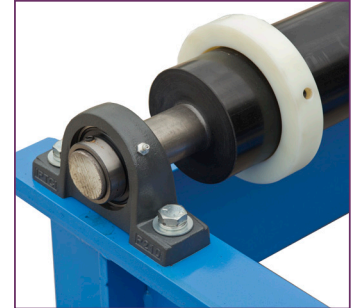

Standard Features

- Adjustable manually for various reel diameters.
Customers must specify 4 reel dia. settings.
- Bolt Down Tabs
- Operates in Forward or Reverse
- Urethane Coated Drive Roller
- Loading Ramp
- Pendant Controlled

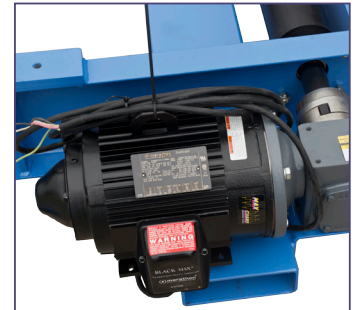

Other Speed Ranges and Drives Available.

Other Models Available to 40,000 Lb. Capacity.
